Epoxy Technology Announces a New Distributor for Germany, Austria and Greece

(Billerica, MA) – January 17, 2011- Epoxy Technology, a leading manufacturer of high performance epoxy adhesives for 45 years, introduces our new, authorized distributor for Germany, Austria and Greece – John P. Kummer, GmbH (JP Kummer). Effective immediately any inquiries and orders for EPO-TEK products should be directed to them at: info@jpkummer.de, or Tel: +49 821 748720, Fax: +49 821 742970.

John P. Kummer, GmbH is located in Augsburg, Germany and has the full support of not only Epoxy Technology, Inc. technical services and customer services team, but also the full assistance and cooperation of Polysciences, AG- our longstanding (20+ years) distributor in Switzerland. We feel that this new distribution arrangement will bring increased coverage and strength of representation of Epoxy Technology extensive product line to this important market.

We appreciate our customers in Germany and Austria for all your purchases and encourage you to work directly through JP Kummer in the future for all your specialty adhesive needs.

For more information on any of Epoxy Technology products or authorized distributors, please visit our website at: www.EPOTEK.com or contact us directly at 978-667-3805.

About Epoxy Technology

Epoxy Technology, Inc., founded in 1966, is a pioneer in the development of specialty epoxies and polymers that meet the highest performance standards for high tech industries worldwide. Through product innovation, EPO-TEK continues to keep pace with evolving industries including semiconductor and microelectronics, medical devices, optical and aerospace. EPO-TEK is a registered trademark of Epoxy Technology, Inc.
