

Introducing

EPO-TEK® 0205NC

Multi-Purpose Adhesive

A Versatile Adhesive for Everyday Applications

EPO-TEK® 0205NC, designed for general use, is an excellent choice for those on-the-go field repairs and your everyday projects.

Sets in 5 Minutes

Versatile

**Moisture/ Chemical
Resistant**

High Strength

Fast Cure: Sets at room temperature in just 5 minutes.

Versatile: Great choice for various materials, including plated metals, glass, wood, ceramics, plastics, cement, gemstones, most plastics, and rubbers.

Broad Application Range: Complies with UL94HB performance standards. Ideally suited for a wide range of applications, including electronic, electrical, industrial, structural, and jewelry applications.

High Bond Strength: A reliable choice for almost any surface, this adhesive also offers impact and water/chemical resistance

Convenient: Our epoxy features a 1:1 mix ratio, and it contains no solvents. Available in easy-to-use 4gm bi-paks and 50 ml dual cartridges---practical and efficient for all your bonding needs.

Choose **EPO-TEK®** every day.
